Latest data show an 8% increase in beneficiaries of temporary protection in 2025

According to the latest statistics published by the Permanent Observatory of Immigration, 338,576 Ukrainians had a valid residence permit in Spain as of 31 December 2025, representing an 8% annual increase compared to the previous year.

Women, especially between 35-44 years old, predominatde among the working-age population. The gender distribution is balanced across displaced Ukrainians aged under 16.

43% of them live in the areas of Alicante, Madrid and Barcelona, while the areas of Teruel, Asturias and Santa Cruz de Tenerife received an increased number.

Their main sectors of employment are construction, hospitality, wholesale and retail trade, repair of motor vehicles and motorcycles, and Information and communications.

More details about the profiles can be found here.
