Several Ministers, members of the police and the acting Director General of the Directorate for Migration and Administrative Internal Affairs met to discuss lengthy asylum procedures which subsequently affect occupancy in accommodation facilities. Special attention was paid to applicants whose procedures last more than 2 years. It was agreed that the Office of the Government of the Republic of Slovenia for the Care and Integration of Migrants will file a supervisory appeal with the Administrative Court of the Republic of Slovenia for each applicant who has been waiting for the completion of the procedure for more than 2 years, with the aim of speeding up procedures and resolving individual cases more efficiently.

Some people have stayed more than 5 years in the asylum home due to lengthy procedures before the competent courts or Dublin III procedures.

The amendments to the Aliens Act and legislation related to the implementation of the EU Pact on Migration and Asylum were also presented.

State Secretary Franc Kangler stated that it is imperative that all competent institutions take the necessary steps to speed up the procedures, and closed the meeting emphasising the compromise between the parties that the longest procedures will be starting to be resolved as a priority.
