Minister extends residence permits for displaced persons from Ukraine until 2028

The Minister for Immigration and Integration approved extending the residence permits of displaced persons from Ukraine under the Special Act on Ukraine until 17 March 2028, subject to continued eligibility. The extension is managed automatically by the Danish Immigration Service, thus beneficiaries do not need to submit a new application or attend an appointment to provide new biometric data. Once approved, updated residence cards will be sent by post.

The authorities aim to process most cases before 17 March 2027. However, individuals whose cases remain pending beyond that date will be allowed to remain in Denmark with the same rights as before until a final decision is made. Applicants will be notified through Digital Post if their permit is extended or if further information is required. This measure provides continued legal residence and stability for displaced Ukrainians in Denmark.
