Romania amended the Law No 21/1991 on Romanian citizenship on 12 March 2025. The amendment provides for the possibility to reduce the mandatory residence period for beneficiaries of refugee protection, from 8 years to 3 years, if the person made special efforts to integrate into Romanian society, especially for remarkable achievements in school or professional training, in the professional career or special civic engagement.

Furthermore, the amendment provides that Romanian citizenship may be granted to stateless person who, through activities carried out regularly for a period of at least 3 years prior to the date of the application, contributed particularly to the protection and promotion of Romanian culture, civilisation and spirituality. The amendment provides examples of such a contribution.
