OPU publishes information leaflet for employees working with children

The Organisation for Aid to Refugees (OPU) provides training to employees of the Czech Authority of Social and Legal Protection of Children (OSPOD), a state and municipal agency responsible for safeguarding the rights, well-being and healthy development of minors. In 2026, OPU published an information leaflet to inform OSPOD employees about Pact provisions with regard to their obligations as guardians of unaccompanied minors.

The leaflet is available here (in CZ).
