Families hosting asylum seekers and status holders to receive monthly payment of EUR 150

The government announced that host families recruited though the Takecarebnb scheme will receive EUR 150/month for the duration that an asylum seeker or status holder stays with them. This 1-year pilot project will start on 1 May 2026. There are approximately 500 host families in the scheme, and through this financial incentive, it is expected that 50 additional host families will be recruited.
