

## The Estonian Human Rights Centre and IOM offer free legal assistance on employment to Ukrainian nationals zzzzzz

The Estonian Human Rights Centre, in cooperation with IOM, is providing free employment counselling to displaced Ukrainian nationals who are suspected or confirmed victims of labour exploitation and/or human trafficking. The support includes legal assistance on employment contracts, as well as advice on preventing and responding to workplace exploitation. The counselling aims to strengthen access to rights and safeguards in the labour market for individuals at heightened risk of exploitation.
