

## New 2 year response plan supporting displaced Ukrainians zzzzzz

Slovakia launched its response plan for the arrival of displaced persons from Ukraine for 2025-2026. UNHCR coordinates the response plan in cooperation with 19 humanitarian partners.

In 2024, the humanitarian community worked closely with the government to improve the effectiveness and quality of aid. The new plan builds on those efforts and brings systematic support to people who have been forced to flee their homes due to conflict.

\$79 million will be needed to implement the planned activities and the goal is to support up to 136,000 displaced Ukrainians in Slovakia over the next two years.
