Eligibility

The [Special Act on assistance to Ukrainian citizens](#) sets out specific rules for legalising the stay of Ukrainian citizens (and their spouses, children and children of spouses who do not hold Ukrainian citizenship) who have come to Poland from the territory of Ukraine in connection with the Russian invasion, and of Ukrainian citizens holding a Pole's Card who, together with their immediate families, arrived in Poland because of those military operations. It applies to persons who came to Poland from Ukraine and declared their intention to stay in Poland.

The Special Act does not apply to persons benefiting from temporary protection in another EU Member State. Also being a beneficiary of temporary protection in another Member State, granted due to hostilities carried out on the territory of Ukraine, deprives a Ukrainian citizen of the possibility of obtaining temporary

protection in Poland.

[Third-country nationals not covered by the Special Act](#), but who belong to the category of displaced persons mentioned in Article 2(1) and (2) of the Council Implementing Decision, may benefit from temporary protection under the Act on Granting Protection to Foreigners. This applies to:

- Stateless persons or citizens of third countries other than Ukraine who, before 24 February 2022, held a valid permanent residence permit in Ukraine, and are unable to return to their country or region of origin in safe conditions.
- Stateless persons or citizens of third countries other than Ukraine (and their family members) who, before 24 February 2022, enjoyed international protection or equivalent national protection in Ukraine.
- Family members of Ukrainian nationals residing in Ukraine before 24 February 2022 who are not covered by the Special Act.

The following persons are considered to be family members (if the family already existed and resided in Ukraine before 24 February 2022):

- Spouses.
- Minor and unmarried children, or children of the spouse, regardless of whether they were born in or out of wedlock or if they were adopted.
- Other close relatives who lived together as a single family at the time when the circumstances leading to the mass influx of displaced persons occurred and who were wholly or partly dependent on the above-mentioned person at the time.

Admission to the territory

All persons entering the territory of Poland undergo border control and are registered at the border crossing point by the Commander of the Border Guard Post (BGP Commander).

A register of Ukrainian citizens entering Poland is kept on the ICT system of the Border Guard.

Border control involves a security screening, during which individuals crossing the state border are checked in the IT systems used by the Border Guard. Health screenings are not conducted routinely. Health status is assessed upon request of the third-country national.
