Croatia will also grant temporary protection to displaced citizens of Ukraine and their family members who have left Ukraine immediately before 24 February 2022 due to the security situation and cannot return to Ukraine due to the armed conflict.

According to Article 78(5) [Law on International Protection and Temporary Protection \(LITP\)](#), Croatia will not grant temporary protection to applicants who are not expressly mentioned in the relevant Government decision.

Admission to the territory

Holders of a biometric passport can enter Croatia visa-free and stay for a total of 90 days within the last 180 days. People who declare being displaced from Ukraine at the border crossing to the border police can enter the country without a travel document. In such cases, biometric data and fingerprints of all 10 fingers and a facial image must be taken, except for minors under 12 years old, who only need to be photographed.

Upon arrival in Croatia, displaced persons undergo security screening conducted by the police at designated border crossing points. Following this, all individuals are registered in the National Border Management Information System (NBMIS) to ensure accurate tracking and access to services. In parallel, medical screenings are carried out both at the borders and within accommodation facilities to assess

immediate health needs. As part of its public health response, Croatia also offers COVID-19 vaccinations to all displaced persons entering the country.

Procedural aspects

Procedure to register and be granted temporary protection

The Government of the Republic of Croatia established an Interdepartmental Working Group coordinated by the Croatian Interior Ministry to coordinate all activities of receiving and caring for displaced people from Ukraine.

Displaced persons from Ukraine can apply for temporary protection through the [Croatia4Ukraine](#) online application, in person at a local police station, or at collective accommodation facilities.

Persons who are not listed in the Government decision implementing the Temporary Protection Directive will have their requests rejected under Article 78(5) of the [LITP](#).

Applications can be completed in English or Ukrainian, and no fees are required. All requests are registered in the Ministry of the Interior's database.

An identity card of an alien under temporary protection is issued shortly after the application is approved and serves as a residence permit but not a travel document.

Under Article 82(4) of the [LITP](#), Croatia will take back individuals under temporary protection who enter another country without authorization, provided their foreigner's card is still valid.

Information on the procedure is available on '[Croatia for Ukraine](#)' website.

Registration

According to Article 78(5) [LITP](#): The requests of displaced persons from Ukraine who were not mentioned in the Government decision implementing the Temporary Protection Directive will be rejected. Displaced persons from Ukraine can apply for temporary protection:

- in person at the nearest competent police administration or station according to the place of accommodation (full list available on website);
- in Collective Accommodation (permanent form of accommodation) where a request for temporary protection in these facilities is submitted to the officers of the Ministry of the Interior, i.e. police departments/station officers.

Exclusion

The grounds for exclusion from temporary protection are laid down in Article 80(1) and (2) of the [LITP](#). A displaced person can be excluded from temporary protection if there are serious reasons to believe that:

- They have committed a crime against peace, a war crime or a crime against humanity as defined by the provisions of international instruments;

According to Article 80(3) to (5), exclusion decisions cannot be appealed but an administrative dispute may be filed with the competent administrative court. This procedure has suspensive effect, but the appeal against the first-instance decision of the administrative court does not.

Termination/Withdrawal	The grounds for termination or withdrawal of temporary protection are laid down in Articles 81 and 82(1) to (3) of the LITP . Croatia cooperates with other relevant organisations to ensure the protection of the rights of persons under international or temporary protection. Croatia also exchanges information on temporary protection with the European Commission and the national authorities of EU+ countries. If it is established during these exchanges that a person under temporary protection got a residence permit on the basis of temporary protection in another country, the foreigner's card issued to them in the Republic of Croatia ceases to be valid.

Impact of simultaneous application for international protection

Information is currently not available.

Assistance to unaccompanied minors

Information about unaccompanied minors should be immediately reported to the police (number 192) or during the border control. If an unaccompanied minor arrives at a border crossing point, social services are involved during the border control.

Border police should also verify the kinship or other relationship if the minor is accompanied by an adult.

Legal guardianship

In the case of an unaccompanied child, it is necessary to contact a police officer or an official in the accommodation facility immediately. The unaccompanied child will be assigned a special guardian by the social welfare centre tasked with safeguarding the child's well-being.

All further proceedings, such as identification and registration, are carried out by a police officer trained to work with children, always in the presence of the appointed guardian.

The special guardian is responsible for protecting the child's rights and interests, representing them in all relevant matters, and taking necessary steps to facilitate family reunification.

Additionally, data on unaccompanied children from Ukraine who are received in Croatia is shared daily with the Embassy of Ukraine in Zagreb, ensuring transparency and coordination.

Accommodation

According to Article 90(2) [LITP](#), giving the best interests of the child, unaccompanied minors may be accommodated:

- with adult relatives,
- in a foster family,
- with providers of social services for children, or
- exceptionally, with the person who cared for them during the escape.

Education

A foreigner under temporary protection has the right to elementary and secondary education.

Currently all children displaced from Ukraine attend online school in Ukrainian.

Assistance to people with special needs

According to Article 90(3) [LITP](#), accommodation will be maintained to foreigners whose temporary protection has ended if they cannot return to their country of origin due to serious health reasons.

Accommodation is organised taking into consideration several criteria, including the vulnerability of beneficiaries of temporary protection. Beneficiaries with disabilities could be provided with a personal assistant in cooperation with Croatian associations of persons with disabilities.
